**FREQUENTLY ASKED QUESTIONS:**

**Movie choices?** We usually only guarantee a film will be playing for about 2-3 weeks after its initial release. Anything after this is decided on a week by week basis depending on how well the film is doing. Typically, animated films last at least 4 weeks or more. However, we can't guarantee this and will only be able to do so one week before the date of your party if you have chosen to host your party 3 weeks after the film's initial release. You can visit our coming soon section of our website or any other online source to see what's scheduled to be released or has already released around the date you are most interested in.

**How do I know what time the movie will be/end?** Birthdays are only hosted during our matinee show times. Typically, we have 3 show times for you to pick from and kids film usually always fall into these show time windows. If they vary they will only vary by 10-15 minutes or so. The first show time is between **noon and 12:15** (If the film you have chosen is also available in 3D this first showtime will be the **3D** time for the first week of its release), the second is between **2:35-2:45** and the last between **4:35 and 4:45**. You pick one of these 3 show times (based on availability if the slot is still open for booking). You then come in one hour before that ShowTime to host your party. The party must **ALWAYS** be before a showtime, never after. Film studios usually release the official run time of a film about 2 weeks prior to its release. We don't host any birthday parties on weekdays. Birthdays are only done on Saturday and Sunday unless it's school break (like summer). In the summer, we host birthdays any day of the week. A common question is "how can I send out invites without knowing the actual movie time and movie length?" We recommend listing the start time as one hour before the show time windows we provided above. For the end time, it's fairly common that kids films are about 1hr and 45 mins in length. We advise that you use that estimate to figure out your end time based on the slot you have chosen. An example: you chose the noon time slot so say party starts at 11 am and ends at 1:45. However, we do advise that you list the end time as 10-15 minutes earlier so that parents picking up children are more likely to arrive early instead of you having to wait around for all the kids to be picked up.

**What do you provide? What do I need to bring/do?** We provide everything for your party except the invitations, cake, candles or goodie bags. The birthday area uses generic decorations and table cloths, cups etc. You get refillable soda pitchers (3 flavors) to use during your party. The drink choices are: Coke, Sprite, Diet Coke, Pink Lemonade, Hi-C Fruit Punch, Cherry Coke, Raspberry Ice Tea, Water and Root Beer. The kids will each get a kids pack for during the movie which will have a scoop or popcorn, a 12oz drink and a fun sized skittles or plain M&Ms candy. Icee's are available for the kids pack but do cost an additional .50 per pack.
